The Arts & Technology Education Centre was formerly known as the Practical Education Centre, which was established by the Education Department in 1986. To reflect more accurately the nature of the Centre in terms of the subjects provided, it was renamed Arts & Technology Education Centre in 2004. The Centre now mainly offers arts and technology courses to public sector schools without the facilities. The “Makerspace” has been set up in October 2017 to promote STEAM education and opened for all secondary and primary schools.
